

AUTOMATIC TEA MAKER

*With variable brewing temperature –
for the perfect preparation of aromatic tea*

ROMMELSBACHER

An elegant appliance that is convincing due to its superior workmanship and elaborate technology. Thanks to its electronic menu control, 4 different brewing temperatures can be set and the steeping time can be individually adjusted to the type of tea used. Whether black tea, green or white tea, whether teas made of fruit or herbs – this fully automatic tea maker delivers aromatic results for each taste. Preparing perfect tea is made easy: fill in water, put tea into the tea strainer, select the program according to your type of tea and – if required – adjust the steeping time; the automatic tea maker will do the rest. The water is heated and directed into the filter jug to infuse the tea. Once the set steeping time has elapsed, the brewed tea flows into the aesthetic glass teapot where it is kept warm. The convenient start time preselection, the automatic switch-off and the easy cleaning due to superior materials make the handling very comfortable. Also the demanding tea drinker will love this superior Rommelsbacher brand appliance!

water tank with patented
pressure relieve valve
