YOUR EXPRESSWAY TO FLAVOR

SENOVEN[®]

Meet Senoven products which have won the appreciation of master cooks thanks to our 40 years of experience in machinery manufacturing.

Every Senoven product bears the imprint of a team that has developed dozens of innovative products in dough preparation, pizza baking and meat cooking groups.

Our company was founded in 1977. Having started out as a mechanical parts manufacturer, we came to create our own designs and brands over the years. 1998, the year of our incorporation as a joint stock company, marks our resolve to move faster towards this goal.

From 1998 onwards, we first proved ourselves with the generation of a dough-sheeting machine –a breakthrough in its own right- followed by the manufacturing of a series of ovens dedicated to high-standard pizza, lahmacun and pita baking.

We are in a constant endeavor to uphold our corporate vision and amateur spirit in the manufacturing of high-quality, efficient, high-tech products for the fast-food industry. Operating today in a 4.000 m2 manufacturing plant, we are happy and proud to have added renowned brands to our customer portfolio.

We look forward to having you there as well.

New Generation
Masters of Kitchen

EVERYTHING IS FINE!

For us, fineness is not just about the thickness of dough. It's a comprehensive mindset covering all the fine details about the experience a product offers. Combined with 25 years of experience, this fine thinking mindset produces reliable and innovative solutions that turn dough preparation into child's play.

Offering versatile solutions for preparing dough with desired form and thinness, Şengün dough rolling machines not only ensure close-to-natural rolling but also speed up and standardize dough preparation for products like pizza, pita and pastry.
