The manufacturer is continually working on the further develop-ment of all types and models. Please be aware that we reserve the right to make changes to the shape, equipment and technology.

Symbol	Explanation
	<b>Read instructions</b> Please read the information in these instructions carefully to understand all of the benefits of your new appliance.
	Full instructions on the internet You can find detailed instructions on the internet using the QR code on the front of these instruction or by entering the service number at home.liebherr.com/fridge-manuals. The service number can be found on the serial tag:
	Fig. Example illustration
	Check appliance Check all parts for transport damage. If you have any complaints, please contact your agent or customer service.

Symbol	Explanation	
*	<b>Differences</b> These instructions apply to a range of models, so differences are possible. Sections that apply to certain models only are marked with an asterisk (*).	
$\land$	Instructions and results Instructions are marked with a ▶. Results are marked with a ▷.	
	Videos Videos about the appliances are available on the YouTube channels of Liebherr-Hausgeräte.	

These operating instructions apply to:

ICBN(S)e(i)	51
ICB(S)d(i)	51

#### Note

If your appliance has an N in its appliance designation, it is a NoFrost appliance.\*

#### Appliance at a glance 1

# 1.1 Scope of delivery

Check all parts for damage during transport. If you have any complaints, please contact your retailer or Customer Services (see 9.4 Customer Services) .

Your new appliance comes with the following parts:

- Built-in appliance -
- Features (depending on the model) -
- Installation materials (depending on the model)
- "Quick Start Guide"
- "Installation Guide"
- Service Brochure

### 1.2 Overview of the appliance and its equipment

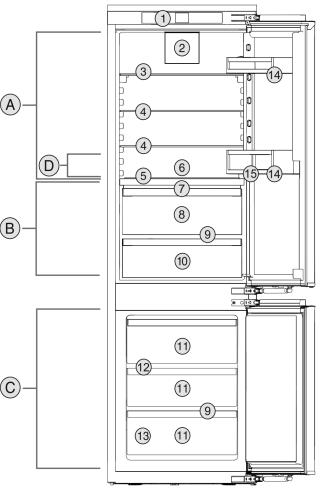

Fig. 1 Example illustration

### **Temperature range**

### (C) Freezer compartment

- (A) Fridge section (B) BioFresh
- (D) Coldest zone

(1) Controls

- Features
  - (9) Drainage outlet (10) Meat & Dairy-Safe

(12) VarioSpace

(13) Nameplate

(14) Door rack

(15) Bottle rack

(11) Freezer compartment

- (2) Fan with FreshAir active
  - carbon filter
- (3) Split shelf (4) Shelf
- (5) Adjustable bottle shelf
- (6) Space for baking tray
- (7) Fruit & Vegetable-Safe
- cover (8) Fruit & Vegetable-Safe

### Note

Shelves, drawers and baskets are arranged for optimum energy efficiency when the appliance is delivered. Changing how the shelves, for example, are inserted in the fridge compartment does not have any impact on energy consumption.

### 1.3 Appliance range of use

### Intended use

The appliance is only suitable for cooling food products in a domestic or household-like environment. This includes, for example, use:

- in staff kitchens, bed and breakfast establishments,
- by guests in country houses, hotels, motels and other accommodation,
- for catering and similar services in the wholesale trade.

All other types of use are not permitted.

### Foreseeable misuse

The following applications are expressly forbidden:

- Storing and refrigerating medicines, blood plasma, laboratory preparations or similar substances and products based on the Medical Device Directive 2007/47/EC
- Use in areas at risk of explosions

Misusing the appliance may lead to damage to the goods stored or they may spoil.

### **Climate classifications**

Depending on the climate classification the appliance is designed to operate in restricted ambient temperatures. The climate classification applying to your appliance is printed on the rating plate.

### Note

Keep to the specified ambient temperatures in order to guarantee that the appliance works properly.

Climate classi- fication	for ambient temperatures of
SN	10 °C to 32 °C
N	16 °C to 32 °C
ST	16 °C to 38 °C
Т	16 °C to 43 °C

## 1.4 Conformity

The refrigerant circuit has been tested for leaks. When installed, the appliance complies with the applicable safety regulations and with the directives 2014/35/EU, 2014/30/EU, 2009/125/EC, 2011/65/EU, 2010/30/EU and 2014/53/EU.

The full text of the EU Declaration of Conformity is available on the following website: www.Liebherr.com

The BioFresh compartment meets the requirements of a cold storage compartment as set out in DIN EN 62552:2020.

## 1.5 EPREL database

Details about energy labelling and ecodesign requirements will be available on the European product database (EPREL) from 1st March 2021. You can access the product database at the following link: https://eprel.ec.europa.eu/ You will be asked to enter the model ID. You can find the model ID on the nameplate.

## 2 General safety instructions

Please keep these operating instructions in a safe place so you can refer back to them at any time.

If you pass the appliance on, please hand these operating instructions to the next user.

Read these operating instructions carefully before use to ensure safe and correct use of the appliance. Follow the instructions, safety instructions and warning messages included at all times. They are important for ensuring you can operate and install the appliance safely and without any problems.

### Danger for the user:

- This device can be used by children and people with impaired physical, sensory or mental abilities or with a lack of experience and knowledge provided that they are supervised or have received instruction in the safe use of this device, and about the resulting hazards. Children must not play with this appliance. Cleaning and user maintenance work must not be carried out by children without adult supervision. Children aged between 3 and 8 are allowed to load and unload the appliance. Children below the age of 3 must be kept away from the appliance unless they are under continuous adult supervision.
- The socket must be easily accessible so that the appliance can be disconnected quickly from the electricity in an emergency. It must not be located in the area behind the appliance.
- When disconnecting the appliance from the supply, always take hold of the plug. Do not pull the cable.
- In the event of a fault pull out the mains plug or deactivate the fuse.
- Do not damage the mains power cable. Do not operate the appliance with a defective mains power cable.
- Only customer service or other specially trained staff may repair or perform other operations on the appliance.
- Only install, connect and dispose of the appliance according to the instructions.
- Only use the appliance when it is installed.

### Fire hazard:

- The coolant used (information on the model plate) is eco-friendly but also flammable. Any leaking coolant may ignite.
  - Do not damage the refrigerant circuit pipes.

- Do not handle ignition sources inside the appliance.
- Do not use electrical appliances inside the appliance (e.g. steam cleaners, heaters, ice cream makers, etc.).
- If the refrigerant leaks: remove any naked flames or ignition sources from the vicinity of the leakage point. Properly air the room. Inform customer services.
- Do not store explosives or sprays using combustible propellants such as butane, propane, pentane, etc. in the appliance. To identify these spray cans, look for the list of contents printed on the can, or a flame symbol. Gases possibly escaping may ignite due to electrical components.
- Please be sure to store alcoholic drinks or other packaging containing alcohol in tightly closed containers. Any alcohol that leaks out may be ignited by electrical components.

### Danger of tipping and falling:

- Do not misuse the plinth, drawers, doors etc. as a step or for support. This applies particularly to children.

### Danger of food poisoning:

- Do not consume food which has been stored too long.

### Danger of frostbite, numbness and pain:

- Avoid prolonged skin contact with cold surfaces or refrigerated/frozen goods or take protective measures, e.g wear gloves.

### Danger of injury and damage:

- Hot steam can lead to injury. Do not use electrical heating or steam cleaning equipment, open flames or defrosting sprays to defrost.
- Do not use sharp implements to remove the ice.

### **Risk of crushing:**

- Do not reach into the hinge when opening and closing the door. Fingers may get trapped.

### Symbols on the appliance:

The symbol can be located on the compressor. It refers to the oil in the compressor and indicates the following danger: Swallowing or inhaling can be fatal. This is only relevant for recycling. There is no danger in normal operation.

This symbol is found on the compressor and indicates the danger of flammable materials. Do not remove the sticker.

A sticker to this effect may be applied to the rear of the appliance. It refers to the foam-padded panels in the door and/or the housing. This is only relevant for recycling. Do not remove the sticker.

# Please note the warning messages and other specific advice in the other chapters:

	DANGER	identifies a situation involving direct danger which, if not obviated, may result in death or severe bodily injury.
$\triangle$	WARNING	identifies a dangerous situation which, if not obviated, may result in death or severe bodily injury.
$\triangle$	CAUTION	identifies a dangerous situation which, if not obviated, may result in minor or medium bodily injury.
	NOTICE	identifies a dangerous situation which, if not obviated, may result in damage to property.
	Note	identifies useful instructions and tips.

# **3** Putting into operation

### 3.1 Switching on appliance

Ensure that the following conditions are met:

- Appliance is installed and connected according to installation instructions.
- All adhesive strips, adhesive and protective films as well as transport safety devices in and on the appliance are removed.
- □ All marketing leaflets are removed from the drawers.

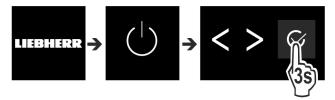

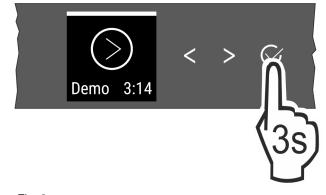

Fig. 2

- Switch on the appliance using the control panel next to the display.
- $\triangleright$  The status display appears.

### The appliance starts in DemoMode:

If the appliance starts in DemoMode, you can deactivate DemoMode within the next 5 minutes.

# Foods management

#### Fig. 3

- Press Confirm next to the display for 3 seconds.
- $\triangleright$  DemoMode is deactivated.

#### Note

The manufacturer recommends:

- Place the food inside: Wait for around 6 hours until the set temperature is reached.
- Store frozen foods at -18 °C or colder.

# 3.2 Inserting the components

- Insert the supplied components to make the most of your appliance.
- Purchase and install the SmartDevice Box (see smartdevice.liebherr.com).\*
- Install the SmartDevice app (see apps.home.liebherr.com).

#### Note

You can purchase accessories from the Liebherr household appliance store (home.liebherr.com).

# 4 Foods management

### 4.1 Storing food

Risk of fire

Do not use any electrical appliances in the food area of the appliance unless recommended by the manufacturer.

#### Note

The energy consumption increases and the cooling power goes down if ventilation is not sufficient.

Always keep air slots clear.

When storing food, always observe the following:

- Air vents on the inside rear wall are unobstructed.
- $\Box$  Air vents on the fan are unobstructed.
- Food is in sealed packaging.
- Foods that easily absorb or give off smell or taste are stored in sealed containers or covered.
- Raw meat and fish are in clean, sealed containers to prevent them coming into contact with or dripping onto other foods.
- Liquids are in sealed containers.
- Foods are not stored too closely together, as the air needs to circulate.

#### Note

Failure to follow these guidelines can lead to food perishing.

### 4.1.1 Fridge section

The natural air circulation creates a range of temperatures.

#### Arrange your food as follows:

- In the top section and in the door: butter and cheese, preserves and tubes.
- ▶ In the coldest zone *Fig. 1 (D)*: easily perishable food such as prepared meals.

### 4.1.2 BioFresh

BioFresh helps certain fresh foods stay fresh for longer compared to conventional cooling methods.

In the case of foods with a minimum shelf life, the date indicated on the packaging still applies.

If the temperature drops below 0 °C, foods can freeze.

#### Note

Store cold-sensitive fruit and vegetables such as cucumbers, aubergines, courgettes and tropical fruit in the cooling section.

### Fruit & Vegetable-Safe 🖒 🧷 🞯

This provides a fresh storage climate with the lid closed. A moist climate is suitable for storing loose foods with a high moisture content (e.g. salad, vegetables, fruit).

The air moisture in the compartment depends on the moisture content of the items being stored and the number of times the door is opened. You can adjust the air moisture.

### Arrange your food as follows:

- Store your loose fruit and vegetables.
- Excessive air moisture: Regulate the air humidity (see 7.8 Adjusting the moisture levels).

### Meat & Dairy-Safe 🖉 🔎 🗇

Here a relatively dry storage climate is set. A dry climate is great for dry or packaged foods (e.g. dairy products, meat, fish, sausage).

#### Arrange your food as follows:

Place the dry or packaged foods inside.

### 4.1.3 Freezer compartment

This provides a dry, frosty storage climate at -18 °C. A frosty climate is great for storing frozen food and frozen goods for several months, making ice cubes and freezing fresh food.

### Freezing food

You can freeze as many kilograms of fresh food within 24 hours as indicated on the nameplate (see 9.5 Model plate) under "freezing capacity ... kg/24h".

So that the food is rapidly frozen through to the core, keep to the following quantities per pack:

- Fruit, vegetables up to 1 kg
- Meat up to 2.5 kg

Before freezing goods, please make sure of the following:

- Appliances without NoFrost:\*
  - SuperFrost is activated (see 6.3 Functions) when the amount of food to freeze exceeds approx. 1 kg.
- Appliances with NoFrost:\*
- SuperFrost is activated (see 6.3 Functions) when the amount of food to freeze exceeds approx. 2 kg.
- With a small amount to freeze: SuperFrost is on for about 6 hours beforehand.
- With a maximum amount to freeze: SuperFrost is on for about 24 hours beforehand.

Arrange your food as follows:

Ι	<u> </u>	7	CAUTION	
_			CAUTION	

Λ

Risk of injury from glass fragments!

Drink bottles and cans may explode if frozen. This applies particularly to carbonated drinks.

Do not freeze bottles and cans of drink!

With a small amount of frozen goods:

- Distribute packaged groceries across all drawers.
- If possible, place groceries at the back of the drawer near the rear wall.
- With a maximum amount of frozen goods:
- Distribute packaged groceries across all drawers.
   If possible, place groceries at the back of the drawer near
- the rear wall. With a maximum amount of frozen goods:
- Once SuperFrost turns off automatically, place the food in the drawer compartment.

#### Defrost the food

- In the fridge
- In the microwave
- In the stove/oven
- At room temperature

Do not re-freeze thawed food.

- Only take out the food you need at the time.
- Cook defrosted food as soon as possible.

### 4.2 Storage times

Refer to the specified storage times as a guide. In the case of foods with a minimum shelf life, the date indicated on the packaging still applies.

### 4.2.1 Fridge section

Always follow the best-before date stated on the packaging.

### 4.2.2 BioFresh

Note

You can also use the guides in the BioFresh app https://home.liebherr.com/de/deu/service/apps/landing-page-apps-emea.html .

Recommended storage periods in the Meat & Dairy-Safe				
Butter	at 1 °C	up to 90 days		
Hard cheese	at 1 °C	up to 110 days		
Milk	at 1 °C	up to 12 days		
Sausage, cold meats	at 1 °C	up to 8 days		
Poultry	at 1 °C	up to 6 days		
Pork	at 1 °C	up to 6 days		
Beef	at 1 °C	up to 6 days		
Game	at 1 °C	up to 6 days		

#### Note

Remember that high-protein foods perish quicker; shellfish and crustaceans do not last as long as fish, and fish does not last as long as meat.

Poultry, beef	at -18 °C	6 to 12 months		
Vegetables, fruit	at -18 °C	6 to 12 months		

# 5 Saving energy

- Pay attention to good ventilation. Do not cover ventilation holes or grids.
- Always keep the fan air slits clear.
- Do not install the appliance in direct sunlight, next to an oven, radiator or similar.
- Energy consumption depends on the installation conditions, e.g. the ambient temperature (see 1.3 Appliance range of use) . A warmer ambient temperature can increase the energy consumption.
- Open the appliance for as short a time as possible.
- The lower the temperature is set the higher the energy consumption.
- Sort your food: home.liebherr.com/food.
- Keep all food properly packed and covered. This prevents frost from forming.
- Only take food out for as long as necessary so that it doesn't warm up too much.
- Inserting warm food: allow to cool down to room temperature first.
- Thaw frozen food in the refrigerator.
- If there is a thick layer of frost in the appliance: defrost the appliance.\*
- For longer periods of absence, use HolidayMode (see HolidayMode).

# 6 Controls

### 6.1 Controls and displays

The display provides a quick overview of the temperature setting and the status of functions and settings. You can control the functions and settings either by deactivating/activating them or by selecting a value.

### 6.1.1 Status display

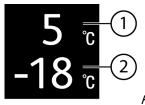

Fig. 4

(2) Freezer compartment

temperature display

(1) Temperature display of the fridge section

6.1.2 Navigation

### Section

Navigate in the menu to access the individual functions. An audible signal sounds after confirming a function or setting. If no selection is made after 10 seconds the display switches to the Status display.

The appliance is operated with the buttons next to the display.

Fig. 5

(1) Navigation arrow left/ (2) Confirm

### Navigation arrow left/right Fig. 5 (1):

 Navigating in the menu. After the last menu page, it goes back to the first one.

### Confirm Fig. 5 (2):

- Activating/deactivating a function.
- Open a submenu.
- Confirm a selection. After confirmation the display switches back to the menu.

#### Back to Status display: in the fastest manner:

- Close and open the door.
- or wait 10 seconds. The display switches to the Status display.

### 6.1.3 Operating structure

The controls are explained by a template. The display changes depending on the function or settings.

#### Menus without a submenu

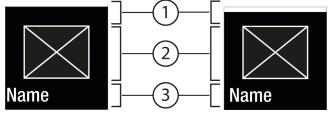

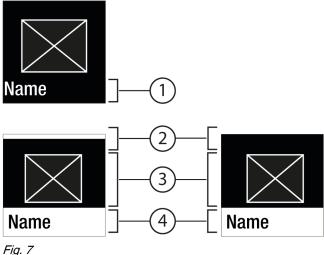

Fig. 6

- Status deactivated / status activated white bar in the top area
   Symbol or activated
- (3) Menu: Function name or menu: Setting name

### Menus with a submenu

value

 Menu: Function name or (3) Symbol or activated value menu: Setting name (2) Status

(4) Submenu: function name or submenu: Setting name

(2) off / on

You can navigation as follows:

- Press the left/right Fig. 5 (1) arrow to navigate.
- Press Confirm Fig. 5 (2) to open the submenu Fig. 7 (4).
- Press the left/right Fig. 5 (1) arrow to navigate.
- Set a new value: Press Confirm Fig. 5 (2) to select an active value Fig. 6 (1).
- Back to the menu: Press Confirm Fig. 5 (2) to select the active value Fig. 6 (2).

### 6.1.4 Display symbols

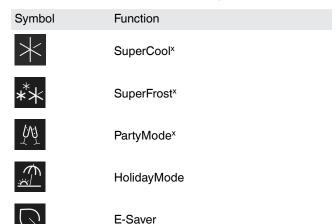

Display symbols provide information on the current appliance status:

Symbol	Appliance status
$\bigcirc$	<b>Standby</b> The appliance or temperature zone is switched off.
5	Flashing number Appliance is working. Temperature flashes until the set value is reached.
- 5-	Flashing symbol Appliance is working. Setting is made.
	Bar grows steadily Function is activated.

### 6.2 Control concept

### 6.2.1 Activating/deactivating the function

You can activate/deactivate the following functions:

\* When a function is on, the appliance works harder. This means the appliance could make louder noises and consume more energy.

- ▶ Press the navigation arrows *Fig. 5 (1)* until the appears.
- Press Confirm Fig. 5 (2).
- > You hear the confirmation tone.
- > Status appears in the menu.
- ▷ Function is on/off.

### 6.2.2 Selecting function value

With the following functions you can set a value in the submenu:

Symbol Function

# 5

18

Cool: Setting the temperature

Turn on/off the temperature zone

### Freeze:

Setting the temperature Switch the appliance on/off

- ▶ Tap the navigation arrows Fig. 5 (1) repeatedly until the function is displayed.
- Press Confirm Fig. 5 (2).
- Select the setting value with the navigation arrows Fig. 5 (1).

### Setting the temperature

- Press Confirm Fig. 5 (2).
- You hear the confirmation tone.  $\triangleright$
- Status: On Fig. 6 (1) appears briefly in the submenu  $\triangleright$ Fig. 7 (4).
- ▷ Display switches back to the menu.

#### Switching the temperature zone on/off

- To Confirm, press for 3 seconds.
- $\triangleright$ You hear the confirmation tone.
- $\triangleright$  Display returns to the Status screen.

### 6.2.3 Activating/deactivating settings

You can activate/deactivate the following settings:

Symbol	Setting
•1)	WiFi <sup>1</sup>
×Ch	Entry lock <sup>2</sup>
	SabbathMode <sup>2</sup>
~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~	Cleaning Mode <sup>2*</sup>
۲ <u>۲</u> ۲	Reminders <sup>1</sup>
$\bigcirc$	Reset <sup>2</sup>
()	Off <sup>2</sup>

- Tap the navigation arrows Fig. 5 (1) repeatedly until the settings appear.
- Press Confirm Fig. 5 (2).
- Tap the navigation arrows Fig. 5 (1) repeatedly until the desired setting is displayed.

#### <sup>1</sup> Activate setting (shortpress)

- Press Confirm Fig. 5 (2).
- You hear the confirmation tone.  $\triangleright$
- $\triangleright$ Status appears in the menu.
- $\triangleright$  Setting is on / off.

### <sup>2</sup> Activate setting (longpress)

- To Confirm Fig. 5 (2), press for 3 seconds.
- $\triangleright$ You hear the confirmation tone.
- ▷ Status appears in the menu.
- ▷ Display changes.

# Controls

### 6.2.4 Selecting the setting value

With the following settings you can set a value in the submenu:

Symbol	Settings
	Brightness
	Door alarm

- Door alarm
- Press Confirm Fig. 5 (2).
- ▶ Tap the navigation arrows *Fig. 5 (1)* repeatedly until the desired setting is displayed.
- Press Confirm Fig. 5 (2).
- Select the setting value with the navigation arrows *Fig. 5 (1)*.
- Press Confirm Fig. 5 (2).
- > You hear the confirmation tone.
- $\triangleright$  Status appears briefly in the submenu.
- $\triangleright$  Display switches back to the menu.

### 6.2.5 Go to the Customer menu

You can see the following settings in the Customer menu:

Symbol	Function
B5	BioFresh B-Value <sup>1</sup>
*	Defrost <sup>2*</sup>
20000000000000000000000000000000000000	Software

- Press the navigation arrows Fig. 5 (1) repeatedly until the settings appear.
- Press Confirm Fig. 5 (2).
- ▶ Press the navigation arrows *Fig. 5 (1)* repeatedly until the appliance information appears in the display.
- Press Confirm Fig. 5 (2).
- Enter the numerical code 151.
- $\triangleright$  The customer menu appears.
- ▶ Press the navigation arrows *Fig. 5 (1)* repeatedly in the customer menu until the desired setting appears.

#### <sup>1</sup> Select the value

- ▶ Press Confirm *Fig. 5 (2)*.
- > You hear the confirmation tone.
- > Status appears briefly in the display.
- > Display switches back to the menu.

#### <sup>2</sup> Activate the setting

- ▶ ToConfirm Fig. 5 (2), press for 3 seconds.
- $\triangleright$  You hear the confirmation tone.
- > Status appears on the display.
- $\triangleright$  The symbol flashes as long as the appliance is working.

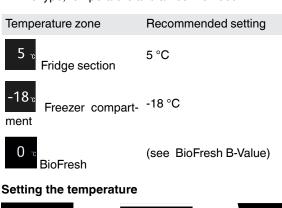

## 6.3 Functions

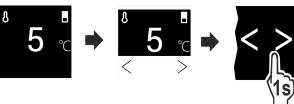

### 5 Temperature

The temperature depends on the following factors:

- The amount of times the door is opened
- How long the door is open for

- The room temperature of the installation site
- The type, temperature and amount of food

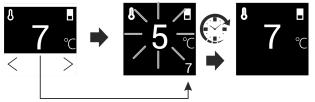

Fig. 8

Set the value. (see 6.2 Control concept).

> Set temperature is shown at the bottom right of the display.

### Switching off a temperature zone

You can switch the fridge compartment off separately. Switching off the freezer section turns off all the temperature zones.

Set the value. (see 6.2 Control concept).

### appears.

### Setting the temperature in the BioFresh

You can set the temperature using the **BioFresh B-Value** in the customer menu. (see BioFresh B-Value)

This function selects the lowest cooling temperature. This gives you colder storage temperatures.

This function is relevant to the fridge section Fig. 1 (A)

#### Use:

- Cool large amounts of food quickly.

#### Activating/deactivating the function

- Using the fridge section: activate the function when you add the goods.
- Activating/deactivating (see 6.2 Control concept).

-or-

Activating/deactivating in the Liebherr SmartDevice-App.\*

The function automatically turns off. The appliance goes back to normal mode. The temperature adjusts itself to the set level.

### \*\* SuperFrost

This function selects the lowest freezing temperature. This gives you colder storage temperatures.

This function refers to the freezer section Fig. 1 (C).

Use:

- For storing more than 2 kg fresh food every day.
- Freezing fresh food quickly to the core.
- Increasing the cold reserves in the stored goods before defrosting the appliance.

### Activating/deactivating the function

With a small amount to freeze:

- Activate 6 hours before use.
- With a maximum amount to freeze:
- Activate 24 hours before use.

Activating/deactivating (see 6.2 Control concept).
 -or-

Activating/deactivating in the Liebherr SmartDevice app.\*

The function automatically turns off. The appliance goes back to normal mode. The temperature adjusts itself to the set level.

# PartyMode

This option offers an assortment of special functions and settings that are useful if you are having a party.

The following functions are on:

- SuperCool
- SuperFrost

All the functions can be adjusted flexibly and separately. Changes are discarded when the function turns off.

### Activating/deactivating the function

- Activating/deactivating (see 6.2 Control concept).
- $\triangleright$  On: All functions are activated at the same time.
- > Deactivated: Previously set temperatures are restored.

After 24 hours the function turns off automatically.

# HolidayMode

This function minimises the energy consumption during an extended absence. The temperature of the refrigerator compartment is set to 15 °C and this is displayed on the status screen when the temperature has been reached.

The set freezer temperature remains unchanged.

This function refers to the fridge section Fig. 1 (A).

Use:

- Save energy if you plan to be away for a while.
- Avoid coming home to bad smells and mould.

### Activating/deactivating the function

- Empty everything from the fridge section.
- Activating/deactivating (see 6.2 Control concept).
- $\triangleright$  On: Fridge temperature is raised.
- $\triangleright$  Off: the previously set temperature is restored.

This function reduces energy consumption. If you activate this function, the cooling temperature increases.

Temperature zone	Recommended setting (see Temperature)	Temperature when E-Saver activated
5 Tridge compart-	5 °C	7 °C
-18 treezer compart-	-18 °C	-16 °C

Use:

- Save energy.

### Activating/deactivating the function

- Activating/deactivating (see 6.2 Control concept).
- Activated: Higher temperatures are set in all temperature zones.
- Deactivated: Previously set temperatures are restored.

### 6.4 Settings

## Connecting to the WLAN

This setting connects the appliance to the internet. The connection is managed in the SmartDevice-Box. You can use the SmartDevice-App to add your appliance to a SmartHome-System. Use the SmartDevice-App or other compatible partner networks to enjoy advanced options and settings.

#### Note

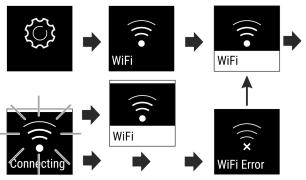

The SmartDevice-Box is available from the Liebherr Domestic Appliances Shop (https://home.liebherr.com/shop/de/deu/smartdevicebox.html).

You can find more information about the availability, prerequisites and the individual options on the Internet under <a href="https://smartdevice.liebherr.com/install">https://smartdevice.liebherr.com/install</a>.

### Use:

- Manage the appliance with the SmartDevice-App or a compatible partner network.
- Enjoy advanced functions and settings.
- Check the current status of the appliance in the SmartDevice-App.
- □ The SmartDevice Box is purchased and installed (see https://smartdevice.liebherr.com/install).\*
- The SmartDevice app is installed (see https:// apps.home.liebherr.com/).

### Setting up the connection

### Fig. 9

- Activating the setting (see 6.2 Control concept).
- The connection is set up: Status: on Fig. 6 (1) and WiFi connecting appears. The symbol flashes.

# Controls

- ▷ The connection is set up: Status: on *Fig. 6 (1)* appears.
- > The connection failed: Status and Connect appears. The symbol appears permanently.

### **Disconnecting the appliance**

Deactivate the setting (see 6.2 Control concept).

#### Fig. 10 $\triangleright$

There is no connection: The symbol is displayed constantly.

### **Restoring the connection**

Restore settings (see 6.2 Control concept).

Fig. 11

> Connection and other settings are restored to factory settings.

WiFi reset

# **Entry lock**

This setting prevents unintentional use of the appliance, e.g. by children.

### Use:

- Avoid settings being changed unintentionally.
- Avoid the appliance being switched off unintentionally.
- Avoid the temperature being changed unintentionally.

### Activating/deactivating settings

Activating/deactivating. (see 6.2 Control concept)

Set the brightness level of the display.

You can set the following brightness levels:

- 40%
- 60%

- 80%
- 100%

### Choose the setting

Set the level (see 6.2 Control concept).

# Door alarm

Set the time before the door alarm (see Close the door) sounds.

The options are as follows:

- 1 min
- 2 min
- 3 min
- Off

### Choose the setting

▶ Set the time (see 6.5 Fault messages) .

This setting allows the appliance information to be read out as well as access to the customer menu.

It provides the following information:

- Model name
- Index
- Serial number
- Service number

### Show appliance data

- Tap the navigation arrows Fig. 5 (1) repeatedly until the settings appear.
- Press Confirm Fig. 5 (2).
- Tap the navigation arrows Fig. 5 (1) repeatedly until the information is displayed.
- Read the appliance info.

# SabbathMode

This setting meets the religious requirements on the Sabbath and Jewish festivals. Turn on SabbathMode to switch off certain controls. This means you can use the appliance without anyone changing the settings.

You can find a list of Star-K-certified appliances at www.stark.org/appliances.

# WARNING

Danger of food poisoning.

If there is a power cut while the appliance is in SabbathMode, this message is not saved. Once power is restored, the appliance continues in SabbathMode. When this mode is over no message about the power cut is displayed on the temperature display.

If there was a power cut during SabbathMode:

Check the food for quality. Do not eat the food if it has thawed.

What happens on the appliance when in SabbathMode:

- The Status display permanently shows SabbathMode.
- The display is locked for all functions apart from turning off SabbathMode.
- Any functions/settings that are already on, remain active.
- The display stays bright when the door is closed.

- Reminders are disabled. The set time intervals are also paused. This function is disabled in SabbathMode.
- Reminders and warnings are not displayed. There are no acoustic signals, and the display does not show warnings or settings such as temperature alarm or door alarm.
- The internal light is off.
- The defrost cycle only works for the specified time without taking account of fridge use.
- After a power cut the appliance automatically returns to SabbathMode.

### Activating/deactivating SabbathMode

- ► To activate the function, click the arrows next to the display
- until you see Settings 🔯 in the menu and then confirm. The menu changes to show the available settings.
- Click the arrows next to the display until you see SabbathMode (Menora) appear. Confirm the symbol.
- $\triangleright\,$  A white bar appears in the top part of the display.
- $\triangleright$  SabbathMode is activated.

To deactivate this function, press the button for confirmation next to the display for 3 seconds.

SabbathMode is deactivated.

# CleaningMode\*

Use this setting to easily clean the appliance.\*

This setting refers to the fridge section Fig. 1 (A).\*

Use:\*

- Clean the fridge section by hand.

What happens on the appliance when this setting is on:\*

- The fridge section is switched off.
- The internal light is on.
- Reminders and warnings are not shown. There is no acoustic signal.

### Activating/deactivating settings\*

- Activating/deactivating the setting (see 6.2 Control concept).
- $\triangleright$  On: fridge section is off. Light stays on.
- $\triangleright$  Off: preset temperature is restored.

After 60 min the setting turns off automatically. The appliance then continues running in normal mode.

# BioFresh B-Value

When delivered, the temperature in the BioFresh compartment is set to **B5**. The status indicator on the display shows the appropriate target temperature in the BioFresh.

You can change this value slightly if a higher or lower ambient temperature makes it necessary. When setting the value, note:

Value	Description	
B1	Lowest temperature	
B1-B4	The temperature can drop to under 0 °C, so food can freeze easily.	
B5	Default temperature	
B9	Highest temperature	
BioFresh B-Value		

### Choose the setting

Set the size in the Customer menu (see 6.2 Control concept).

# Reminder

Reminders are given out acoustically by a beep and visually by a symbol in the display. The signal gets louder until the alert stops.

 $\bigcirc$ 

### Replace FreshAir active carbon filter

- This message appears when the air filter needs replacing.
- Change the air filter every six months.
- Confirm the message with OK.
- $\triangleright$  The service interval resets.
- $\,\triangleright\,$  The air filter guarantees the air quality in the fridge.

### Activating the setting

Activating/deactivating (see 6.2 Control concept).

This function resets all settings to the factory settings. All settings that you have made thus far will be reset to their original values.

### Activating the setting

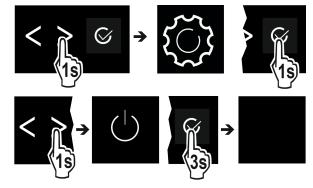

Activate (see 6.2 Control concept).

Turn off appliance

This setting turns off the whole appliance.

### Switching off the entire appliance

### Fig. 12

Activating/deactivating (see 6.2 Control concept).

▷ Off: Display goes black.

### 6.5 Fault messages

Fault messages appear in the display. There are two categories of fault message:

Category	Meaning	
Message	Reminder of general procedures. You can carry out these procedures to eliminate the message.	
Warning	Appears when there are malfunctions. A signal sounds in addition to the display. The signal becomes louder until you acknowledge by tapping the display. You can eliminate simple defects yourself. For more serious defects, you must contact customer service.	

# Features

### 6.5.1 Warnings

### Close the door

This message appears if the door is open for too long.

You can set how long it takes for this message to appear . ► Stop alarm: Confirm the message.

- -or-
- Close the door.

This message appears if the freezer temperature increased due to a power cut. After the power is restored, the appliance continues to work at the set temperature.

- ► Stop alarm: Confirm the message.
- > Temperature alert appears (see Temperature alarm) .

### Temperature alarm

This message appears if the freezer temperature does not match the set temperature.

Variations in temperature could be because:

- Hot, fresh food was inserted.
- Too much warm room air flowed in when rearranging and removing food.
- The power was cut off for a while.
- The appliance is faulty.

When the fault is eliminated the appliance continues to work at the set temperature.

- Confirm the display.
- $\triangleright$  The highest temperature is shown.
- Confirm display again.
- $\triangleright$  The status display is displayed.
- > The current temperature is shown.

This message appears if there is a fault with the appliance. An appliance component indicates a fault.

- Open the door.
- Note down the fault code.
- Confirm the message.
- $\triangleright$  The signal tone stops.
- $\triangleright$  The status display appears.
- Close the door.
- ► Contact customer service. (see 9.4 Customer Services)

### 6.5.2 DemoMode

If "D" appears on the display, demo mode is on. This option is designed for retailers, as it turns off all the cooling functions.

### Stopping DemoMode

- If you see the following running in the display:
- Confirm the display within the countdown.
- $\triangleright$  DemoMode is off.
- If the timer is not running:
- Unplug the appliance.
- Plug the appliance in again.
- $\triangleright$  DemoMode is off.

# 7 Features

- 7.1 Door rack
- 7.1.1 Move/remove the door rack

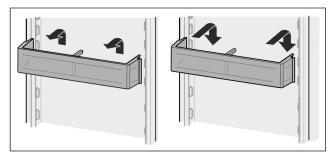

Fig. 13

- Slide the rack upwards.
- Pull forwards.
- Re-insert it in reverse order.

### 7.1.2 Disassembling the door rack

The door rack can be taken apart for cleaning.

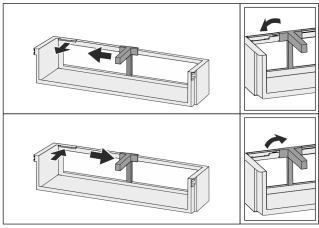

Fig. 14

Disassemble the door rack.

## 7.2 Shelves

### 7.2.1 Adjusting/removing the shelves

The shelves are prevented from being pulled out accidentally by pull out stops.

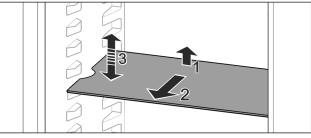

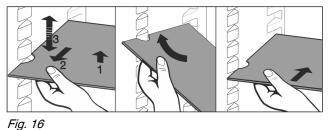

Fig. 15

- Lift the shelf and pull forward.
- $\triangleright$  Line up the side runner.
- Adjust the height of the shelf: Lift or lower it to the desired height and slide it in.
- -or-

# Features

- Remove the shelf completely: Pull it out to the front. ►
- Easier removal: Set the shelf at an angle. ►
- Insert the shelf again: Slide it in all the way. ►
- The pull-out stoppers point downwards.  $\triangleright$
- The pull-out stoppers are behind the front support.  $\triangleright$

### 7.3 Dividing shelf

### 7.3.1 Using the dividing shelf

The shelves are prevented from being pulled out accidentally by pull out stops.

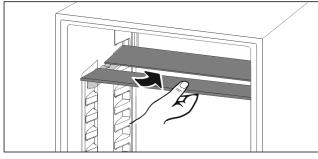

Fig. 17

Push the dividing shelf underneath as shown.

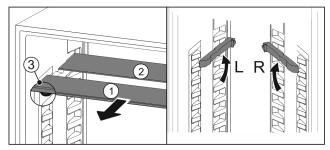

Fig. 18

### Adjusting the height:

- ▶ Pull the glass panels out Fig. 18 (1) from the front, one at a time.
- Release the support rails and click in at the height you want. ►
- Slide in the glass panels one at a time. ►
- > Flat pull-out stoppers at the front, right behind the support rails.
- $\triangleright$  High pull-out stoppers at the back.

### Using both shelves:

- Hold the glass panel with one hand and pull it to the front.
- The glass panel *Fig. 18 (1)* and trim strip are at the front.
   The stops *Fig. 18 (3)* point down.

# 7.4 Space for baking tray

There is space for a baking tray Fig. 1 (6) above the drawers.

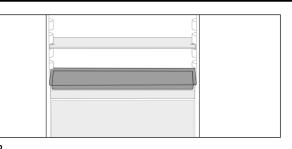

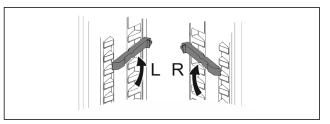

Fig. 19

Ensure that the following conditions are met:

- □ Max. baking tray dimensions are adhered to (see 9.1 Technical specifications)
- Baking tray is cooled to room temperature.
- □ The lowest door rack is set at least one position higher.
- With the door open to 90°:
- ▶ Slide the baking tray onto the lower side runners.
- -or-If baking tray is uneven:
- Use the supplied support rails.

### Fig. 20

- Snap support rails into the lowest runners. With the door open to 90°:
- Slide the baking tray in on the support rails.

## 7.5 Adjustable bottle shelf

### 7.5.1 Using the bottle shelf

In the bottom of the fridge section you can either use the variable bottle shelf or the glass panel.

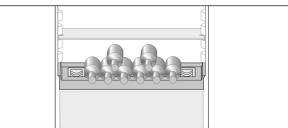

Fig. 21

- ► Remove the glass panel and store in a safe place.
- Lay bottles with their base towards the rear wall.

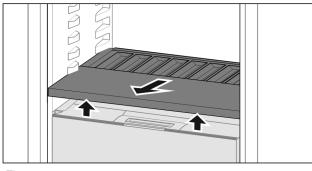

### Note

- If the bottles are protruding over the front of the bottle shelf:
- Move the lower door rack up a place.

### 7.5.2 Removing the bottle shelf

You can remove the bottle shelf for cleaning. Remove the glass panel above the bottle shelf.

# Features

- Fig. 22
- ▶ Lift the bottle shelf at the front and pull out.

### Note

Liebherr recommends the following:

Do not place any goods on the drawer cover below.

### 7.5.3 Inserting the bottle shelf

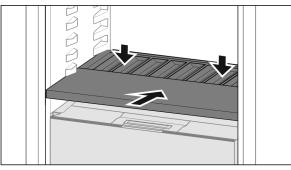

Fig. 23

▶ Slide in the bottle shelf until it engages and push down.

## 7.6 Drawers

Drawers can be removed for cleaning.

The shelves below can be used for storage until the drawers are replaced.

The way to remove/insert the drawers varies depending on the pull-out system. Your appliance can include various pull-out systems.

For appliances with NoFrost:\*

### Note

The energy consumption increases and the cooling power goes down if ventilation is not sufficient.\*

Leave the bottom drawer in the appliance!\*

Always leave the fan air vents clear on the back wall!\*

For appliances without NoFrost:\*

### Note

The energy consumption increases and the cooling power goes down if ventilation is not sufficient.\*

Always leave the fan air vents clear on the back wall!\*

### 7.6.1 Removing the drawer

### Drawer without a pull-out system

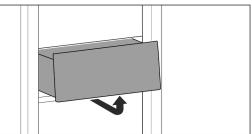

Fig. 24

Fremove the drawer as shown in the illustration.

### Drawer on telescopic rails

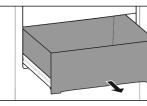

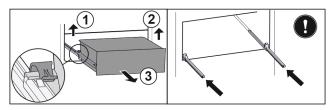

Fig. 25

Ensure that the following conditions are met:

Drawer is completely pulled out (see Fig. 1385).

Fully extendible:\*

### Fig. 26\*

- Lift the left clamp and simultaneously pull the drawer on the left forwards Fig. 26 (1).\*
- Lift the right clamp and simultaneously pull the drawer on the right forwards Fig. 26 (2).\*
- ▶ Take out the drawer to the front Fig. 26 (3).\*
- Slide the rails in.\*

# Partial pull-out fridge compartment:\*

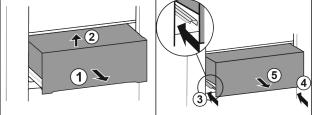

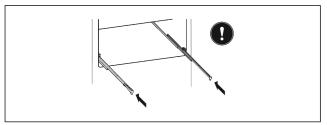

Fig. 27\*

- Pull out the drawer half-way Fig. 27 (1).\*
- Lift at the front Fig. 27 (2).
- Insert left rail Fig. 27 (3).
- Insert right rail Fig. 27 (4).\*
- ▶ Take out the drawer to the front Fig. 27 (5).\*

#### Fig. 28\*

If the rails are not yet fully inserted after removing the drawer:\*

Push the rails in completely.\*

### 7.6.2 Inserting the drawer

### Drawer without a pull-out system

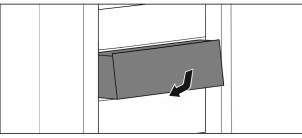

Fig. 29

Insert the drawer as shown.

### Drawer on telescopic rails

### Fully extendible:\*

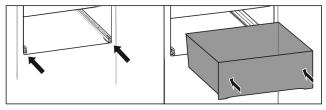

Fig. 30\*

- Slide the rails in.\*
- Place the drawer on the rails.\*
- Push all the way back.\*
- $\triangleright$  Fully extendible: Latches in audibly at the back.\*

### Partial pull-out fridge compartment:\*

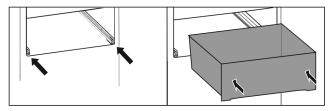

Fig. 31\*

- Slide the rails in.\*
- Place the drawer on the rails.\*
- Push all the way back.\*

## 7.7 Fruit & Vegetable safe cover

You can remove the compartment cover for cleaning.

### 7.7.1 Removing the compartment cover

Ensure that the following conditions are met:

Bottle shelf is removed (see 7.5 Adjustable bottle shelf) .

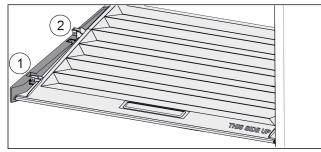

Fig. 32

When the drawers are removed:

- Pull the lid up at the front to the opening in the retaining parts Fig. 32 (1).
- Lift from the back and pull it up and out Fig. 32 (2).

### 7.7.2 Inserting the compartment cover

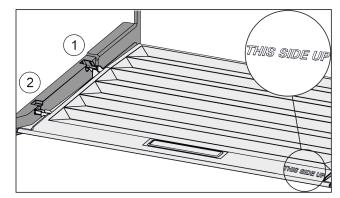

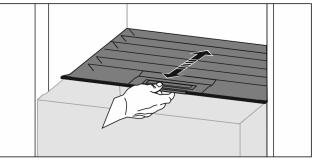

Fig. 33

- If the text THIS SIDE UP points upwards:
- Insert the lip of the cover over the opening of the rear bracket Fig. 33 (1) and click into place Fig. 33 (2).
- Position the cover where you want it (see 7.8 Adjusting the moisture levels).

# 7.8 Adjusting the moisture levels

You can adjust the moisture in the drawer yourself by adjusting the compartment cover.

The compartment lid is attached to the drawer and can be hidden by a shelf or additional drawers.

### Low air humidity

- Open the drawer.
- ► Slide the compartment cover forwards.
- ▷ With the drawer closed: Gap between the cover and the compartment.
- $\triangleright$  The air moisture in the Safe decreases.

### High air moisture

- Open the drawer.
- Slide the cover back.
- $\triangleright$  With the drawer closed: The cover seals the compartment.
- The air moisture in the Safe increases. If there is too much moisture in the compartment:

# Maintenance

- Choose the setting "low air moisture".
- -or-
- Remove any excess moisture with a cloth.

### Note

You can apply the "low air moisture" setting to the Fruit & Vegetable-Safe and the Meat & Dairy-Safe. ► Set the "low air moisture" option.

## 7.9 VarioSpace

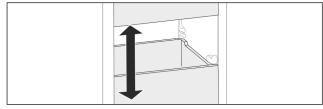

Fig. 35

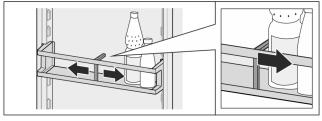

You can remove drawers and glass panels from your appliance. This provides more room for large food items such as poultry, joints of meat, large game, and tall baked products. You can then freeze these items whole for later preparation.

Note the weight limits on the drawers and glass panels (see 9.1 Technical specifications).

## 7.10 Accessories

### 7.10.1 Bottle holder

### Using the bottle holder

- Fig. 36
- Push the bottle holder onto the bottles.
- $\triangleright$  The bottles are prevented from falling over.

### Removing the bottle holder

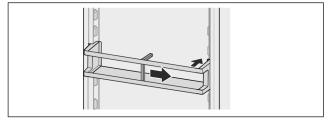

Fig. 37

- Move the bottle holder all the way to the right.
- Push the bottle holder to the back to remove.

# 8 Maintenance

### 8.1 FreshAir carbon filter

The FreshAir carbon filter is in the compartment above the fan. It guarantees the best air quality.

Beplace the carbon filter every 6 months.

With the *Reminder* setting on, a message on the display prompts you to replace it.

The carbon filter can be disposed of with the regular household waste.

### Note

You can purchase the FreshAir carbon filter from the Liebherr household appliance store (home.liebherr.com).

### 8.1.1 Removing the FreshAir carbon filter

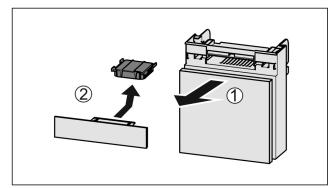

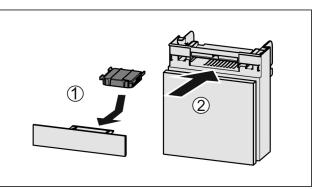

Fig. 38

- Pull out the compartment Fig. 38 (1).
- Remove the carbon filter *Fig. 38 (2)*.

### 8.1.2 Inserting the FreshAir carbon filter

### Fig. 39

- Insert the carbon filter as shown in the diagram *Fig. 39 (1)*.
   The carbon filter clicks into place.
- If the carbon filter is pointing downwards:
- Push the compartment in *Fig. 39 (2)*.
- $\triangleright$  The carbon filter is now ready for use.

## 8.2 Defrosting the appliance

# 

Improper defrosting of the appliance!\* Injuries and damage.

- Do not use mechanical equipment or other methods to speed up the defrosting process other than those recommended by the manufacturer.
- Do not use electrical heating or steam-cleaning appliances, naked flames or defroster sprays to defrost.
- ▶ Do not use sharp objects to remove ice.

### 8.2.1 Defrosting the fridge compartment

Defrosting is performed automatically. The water from the thawing process drains through the outlet and evaporates.

Water drops or a thin layer of frost or ice can form on the back wall; this is a completely normal part of the appliance's function. This must not be removed.

Clean the drain opening regularly (see 8.3 Cleaning the appliance).

# 8.2.2 Defrosting the freezer compartment with NoFrost\*

Defrosting is performed automatically with the NoFrost system. The moisture is deposited on the evaporator, is periodically defrosted and evaporates.

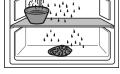

The appliance does not need to be defrosted.

# 8.2.3 Defrosting the freezer compartment manually\*

A layer of frost or ice forms after prolonged use.

The following factors promote the formation of frost or ice:

- The appliance is opened frequently.
- Hot food is put in.
- One day before defrosting:
- Activate SuperFrost (see 6.3 Functions).
- Frozen goods have a "residual coldness".
- Switch off the appliance (see 6.4 Settings) .
- Pull out the mains plug or switch off the fuse.
- Wrap the frozen produce in newspaper or blankets and store in a cool place.
- Place a pan of hot water (not boiling) on the middle shelf.

- $\triangleright$  This speeds up the defrosting process.
- Leave the appliance door open during defrosting.
- Remove loosened pieces of ice.
- Make sure that there is no melted ice water in the cabinet.
- Soak up the melted ice water with a sponge or cloth several
- times as necessary. Clean the appliance (see 8.3 Cleaning the appliance).

# 8.3 Cleaning the appliance

### 8.3.1 Ready

Danger of electric shock!

Remove the refrigerator connector or interrupt the power supply.

# Risk of fire

Do not damage the refrigeration circuit.

- Empty the appliance.
- Remove mains connector.

-or-

Activate CleaningMode. (see CleaningMode\*) \*

### 8.3.2 Cleaning the interior

### NOTICE

- Improper cleaning!
- Damage to the appliance.
- Only use soft cleaning cloths and ph-neutral all-purpose cleaners.
- Do not uses abrasive sponges or steel wool which may cause scratches.
- Do not use any sharp or abrasive cleaning agents, nor any that contain sand, chloride or acid.

- Plastic surfaces: clean by hand with a soft clean cloth, lukewarm water and a little detergent.
- Metal surfaces: clean by hand with a soft clean cloth, lukewarm water and a little detergent.
- ▶ Drain outlet *Fig. 1 (9)*: remove any deposits with a thin item such as a cotton bud.

### 8.3.3 Clean the components

### NOTICE

Improper cleaning!

- Damage to the appliance. • Only use soft cleaning cloths and ph
- Only use soft cleaning cloths and ph-neutral all-purpose cleaners.
- Do not uses abrasive sponges or steel wool which may cause scratches.
- Do not use any sharp or abrasive cleaning agents, nor any that contain sand, chloride or acid.

# Clean with a soft, clean cloth, lukewarm water and some detergent:

- Door rack
- Shelf
- Dividing shelf
- Fruit & Vegetable safe cover
- Drawer
- Adjustable bottle shelf

### Clean with a damp cloth:

Retractable rails Please note: The grease in the tracks is used for lubrication and must not be removed!

### Wash in the dishwasher up to 60 °C:

- Bottle rack
- Holder of the dividing shelf
- ▶ To disassemble components: see the relevant section.
- Clean the components.

### 8.3.4 After cleaning

- ▶ Wipe the appliance and the components dry.
- Connect and switch on the appliance.
- Activate SuperFrost (see 6.3 Functions).
- The temperature is cold enough:
- Place the food inside.
- Repeat cleaning regularly.

# 9 Customer help

Frequency band	2.4 GHz
Maximum radiated power	<100 mW
Purpose of the wire- less equipment	Integration in the local WiFi network for data communication

## 9.2 Operating noises

The appliance makes different noises when it is on.

- At **higher temperatures** the appliance uses less energy but works for longer. It is **quieter**.
- At lower temperatures the food is cooled faster. It is louder.

Examples:

- Functions on (see 6.3 Functions)
- Fan running

- Food recently added
- High ambient temperature
- Door open for a while

Noise		Possible cause		Type of noise		
Bubbling splashing	and	Coolant fl the coolin	owing into g circuit.	Nori nois		
Hissing		Coolant sprays into the cooling circuit.		Nori nois		
Humming		The appliance is cooling. The volume depends on the cooling output.		Normal operating noise		
Suction noises		Soft-closing door is being opened and closed.		Nori nois

### 9.3 Technical fault

Your appliance is designed and built to ensure it works reliably and has a long service life. In the unlikely event that a fault occurs during operation, please check whether it is due to an operating error. If so, you will be charged for the callout and repair costs even if it falls within the warranty period.

items.

### You can fix the following faults yourself.

### 9.3.1 Appliance function

Defect	Cause	Remedy
The appliance is	$\rightarrow$ The appliance is not switched on.	<ul> <li>Switch the appliance on.</li> </ul>
not working.	→ The power plug is not properly plugged into the socket.	<ul> <li>Check the power plug.</li> </ul>
	→ There is something wrong with the power outlet fuse.	<ul> <li>Check the fuse.</li> </ul>
	→ Power cut	<ul> <li>Keep the appliance closed.</li> <li>Protecting food: Lay freezer packs on top of the food or use another freezer if the power is off for a prolonged period.</li> <li>Do not re-freeze defrosted food,</li> </ul>

Defect	Cause	Remedy		
	→ The appliance plug does not fit the appliance properly.	<ul> <li>Check the appliance plug.</li> </ul>		
Temperature is not cold enough.	→ The appliance door is not closed properly.	<ul> <li>Close the appliance door.</li> </ul>		
	$\rightarrow$ Not enough ventilation.	<ul> <li>Keep ventilation grille clear, and clean it.</li> </ul>		
	$\rightarrow$ The ambient temperature is too high.	<ul> <li>Solution: (see 1.3 Appliance range of use).</li> </ul>		
	→ The appliance was opened too many times or for too long.	Wait to see if the required temperature corrects itself. If not, contact Customer Service (see 9.4 Customer Services).		
	→ Too much fresh food was placed inside without SuperFrost.	<ul> <li>Solution: (see SuperFrost)</li> </ul>		
	$\rightarrow$ The temperature is set incorrectly.	Turn down the temperature and check after 24 hours.		
	→ The appliance is too close to a heat source (oven, radiator, etc).	Move the appliance or the heat source.		
	→ The appliance was not correctly installed in the recess.	Check if the appliance was installed correctly and that the door closes properly.		
The door seal is defective or needs to be replaced for another reason.	→ The door seal can be replaced. It can be replaced without the need for special tools.	<ul> <li>Contact Customer Services (see 9.4 Customer Services).</li> </ul>		
The appliance builds up too much ice or condensation.	→ The door seal may have slipped out of its groove.	Check that the door seal is well fitted in the groove.		

### 9.3.2 Features

Defect	Cause	Remedy		
The internal light	$\rightarrow$ The appliance is not switched on.	<ul> <li>Switch the appliance on.</li> </ul>		
does not come on.	→ The door was open for longer than 15 minutes.	Interior lighting turns off automatically after approx. 15 min. with the door open.		
	→ The LED light is faulty or the cover is damaged:	<ul> <li>WARNING</li> <li>Risk of injury due to electric shock!</li> <li>There are live electrical parts under the cover.</li> <li>Only ever have the inside LED light replaced or repaired by customer service or trained personnel.</li> </ul>		

### 9.4 Customer Services

First check if you can fix the error yourself (see 9 Customer help) . If you can't, contact Customer Services.

Please refer to the enclosed "Liebherr-Service" brochure for the address.

Injuries.

- ► Have any repairs and action not expressly specified on the appliance and mains cable carried out by service personnel only. (see 8 Maintenance)
- A damaged mains cable may only be replaced by the manufacturer, the manufacturer's Customer Service or a similarly qualified person.
- In the case of appliances with an IEC connector, the change may be made by the customer.

### 9.4.1 Contact Customer Services

Make sure you have the following appliance data at the ready: Appliance name (model and index)

# Shutting down

□ Service no. (Service)

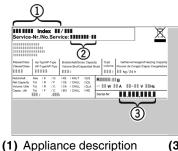

□ Serial no. (S no.)

▶ Look up the appliance information on the display (see Info). -or-

- Referring to appliance info on the nameplate (see 9.5 Model) plate).
- Note down the appliance information.
- ▶ Notify Customer Services of the following: Give us the appliance data.
- This will help us to provide you with a faster, more accurate service.
- Follow any further instructions given by Customer Services.

## 9.5 Model plate

The model plate is behind the drawers on the inside of the appliance.

- (2) Service no.
- Note the data on the model plate.

# 10 Shutting down

- Empty the appliance.
- Turn off the appliance (see 6.4 Settings).
- Remove mains connector.
- Remove appliance connector if required: Remove and move from left to right at the same time.
- Clean the appliance (see 8.3 Cleaning the appliance).
- Leave the door open to avoid bad smells building up.

# 11 Disposal

## 11.1 Preparing appliance for disposal

Liebherr uses batteries in some of its appliances. In the EU, for environmental reasons, legislation obliges the end user to remove these batteries before disposing of old appliances. If your appliance contains batteries, a corresponding notice is attached.

Lamps

If you can remove the lamps yourself without destroying them, also remove these before disposal.

- Take the appliance out of operation.
- Appliances with batteries: remove the batteries. For description, see Maintenance chapter.
- If possible: remove lamps without destroying them.

### 11.2 Disposing of the appliance in an environmentally friendly manner

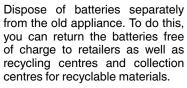

Lamps

For Germany:

The appliance still contains valuable materials and must be disposed of separately from unsorted municipal waste.

Dispose of removed lamps via the respective collection systems.

You can dispose of the appliance free of charge via the class 1 collection containers at the local recycling and recyclable material collection centres. When purchasing a new fridge/freezer, if the sales area > 400 m<sup>2</sup>, retailers will also take back the old appliance free of charge.

Leaking coolant and oil!

Fire. The coolant contained in the appliance is eco-friendly, but also flammable. The oil contained in the appliance is flammable. Escaping coolant and oil can ignite if the concentration is high enough and in contact with an external heat source.

- Do not damage the pipelines of the coolant circuit and the compressor.
- Transport the appliance without damaging it.
- Dispose of batteries, lamps and the appliance according to ► the above specifications.
