Original Line

Description

Original is a complete series of our classic coffee machines. Machines that, for decades, have earned a reputation in cafés, restaurants, hotels and other environments where guests are served good coffee. The machines are built based on proven technology that has been complemented and refined over the years with new innovations. The result is a coffee machine that you can rely on and that you will enjoy for years and years to come.

Features

- 1.8 l in < 6 minutes.
- 15 l/h per brew group.
- Manual water filling on all models.
- Digital display (only available on automatic versions).
 - Cup number settings (from 4 to 12 cups).
 - Alarm when coffee is ready.

ThermoKinetic SERIES

Description

Our new coffee brewers use the kinetic energy generated by the air introduced into the boiler, thus increasing or decreasing the temperature of the water inside the boiler and, in consequence, the water which is poured into the brewing basket. The air supply accuracy, together with a specific PID Control (proportional, integral and derivative) which predicts how the system is reacting, consistently provide the right water temperature in contact with the coffee.

Advanced feature

- ECBC Approved
- Sophisticated combination of temperature control systems, PID included.*
- Efficient water contact timings in the filter gasket.
- Improved TDS rate and a genuine, exceptional taste.

(*) Patent applied

Standard Features

All models:

- Manual water filling

Automatic models:

- Automatic water filling
- Electronic timer
- Adjustable brewing volume, 4-12 cups

Supplied Accessories

- 1 Decanter per hotplate
- 25 pcs filter paper
- 1,5 metre connection hose (only automatic versions)

NOTE: Please check your regional price list for available versions/options and part numbers.

Combine your brewer with Grinder Original to be able to adjust the grinding for perfect brewing extraction to get optimal quality and taste of the coffee.

INSTALLATION NOTE: Please refer to the User Manual and the Technical Manual.
