GROHE RAPID SLX

# THE PAST 25 YEARS A HISTORY OF INNOVATION

## BUILDING FOR THE FUTURE

At GROHE, we don't believe in standing still. Over the years we have acquired skills and experience from a wide range of innovative enterprises in the pursuit for innovation. In 1994, one such enterprise was DAL, a producer of installation and flushing systems and a leader in the technology industry. By acquiring DAL, we entered the installation system business for the first time – and now, 25 years later, we're proud to look back and see what we've achieved.

Yet as much as we love celebrating this 25<sup>th</sup> year anniversary, we would actually prefer to look forward. Innovation is at the heart of what we do and our rich tradition of creating market-leading products will only continue by keeping our fingers on the pulse and one foot in the future. The world of bathrooms is an ever-changing landscape, but rest assured: GROHE will make sure you're not left behind.

1971      1981      1986      1994      1998      2007      2008      2009      2013

# GROHE RAPID SLX READY FOR TOMORROW, TODAY

## BUILT AROUND THE FUTURE

We know what the future holds because we help shape it. Take the shower toilet, the smart toilet, rimless toilets and our ever-increasing range of GROHE flush plates, for instance. Some of the technology to support these developments is already in place; some of it will be in the near future. And that's where the Rapid SLX comes in.

Whatever the future holds in store, the Rapid SLX is ready. It's ready to offer you access to everything that's available today and everything that will come tomorrow. It's designed to make life easier and smarter – for both installation engineers and end consumers – and to ensure vision isn't held back by technology.

2019

- [1] Points for securing the on-the-wall installation accessories
- [2] A QR code printed on the inside of each GD2 cistern links to information such as product number, spare parts and technical drawings
- [3] **FLOW MANAGER** new

  - Access door for future changes
  - Easily upgrade power/water connections
  - New installation box design comes as standard
- [12] **VERSATILE**  
Element feet with variable fixing points for all applications

# UNIQUE FLOW MANAGER

---

## FULLY ADJUSTABLE, RIMLESS READY

The unique integrated flow manager means you are able to easily adjust the flow of water at all times. This makes the Rapid SLX the perfect fit for the ever-increasing range of rimless ceramics entering the market. The fully-adjustable flow manager requires no demounting and is 100% ready for all future installations.

## PLUG & PLAY

---

### CONNECTED TO THE FUTURE

The Rapid SLX comes with a real integrated electric socket. A water connection for shower toilets also comes as standard. This exclusive feature enables easy plug-and-play installation of smart electric toilet features and is completely ready for all future shower toilets, such as the GROHE Sensia Arena.

# DIRECT ACCESS DOOR

---

## READY FOR TOMORROW'S CHANGES

The Rapid SLX's new installation box comes complete with an easy-access door as standard. And when future changes are needed, such as upgrading power or water connections when a customer changes from a standard ceramic to a shower toilet, its new U-shaped crossbar gives you more space than ever to work in.

# FLUSH PLATE FLEXIBILITY

---

## NO LIMITS TO VISION

The Rapid SLX supports GROHE's new range of slim flush plates. This means GROHE's complete range, including the world's slimmest and thinnest plates, is now available to everyone. So rather than being held back by outdated technology, customers can now design the bathroom of their dreams time and time again. See page 10 for the full range.

# RAPID SLX RANGE

## COMPLETE FLEXIBILITY

### FOR ALL INSTALLATION NEEDS

Not all bathrooms are the same and a certain degree of flexibility is required when it comes to installing fixed bathroom features. Thankfully, the Rapid SLX installation system comes with a range of possibilities to ensure you

get exactly the setup you require, ultimately saving you time and money and ensuring you can deliver complete customer satisfaction from the start.
