

EM 43 F

CM43 F: the versatile, practical, and efficient single disc machine suitable for daily cleaning

The CM43 F professional single disc machine from Comac is extremely robust but easy to maintain. Equipped with gear drive and cable-powered, it's the ideal single disc machine for daily maintenance, from scrubbing to treatment on all types of hard floor.

Thanks to the steel frame and polypropylene carter, this professional single disc machine succeeds in combining comfort and control for the operator with efficient performance and exceptional versatility. CM43 F is suitable for heavy duty cleaning of hard and vinyl floors with water, as well as foam or powder cleaning of carpet floors, and for dry polishing of vinyl floors.

CM43 F is the professional single disc machine that's perfect for cleaning contractors and for floors treatments of hotels and in the HoReCa sector in general, as well as also Large-Scale Retailing and transport.

CM43 F
Working width: 430 mm
Power supply: cable
Drive: gearbox

Key elements and best technologies placed at the service of CM43 F single disc machine, to guarantee optimal performance:

THE ADVANTAGES OF CM43 F

- Stainless steel frame and PPL carter.
- Powerful motors that ensure excellent washing and polishing results.
- The off-set position of the engine ensures a well-balanced weight distribution, which translates into effortless use of the single disc machine for the operator.
- Detachable power cord makes transport and maintenance easier.
- Ergonomic: the handle can be adjusted to any of the numerous pre-set levels to obtain the most suitable working position.
- Double safety system: the single disc machine is activated only when the handlebar levers and the safety button are simultaneously pressed. When the levers are released the single disc machine stops.
- Polyethylene tank (optional) with graduated scale and lid. The tank can be removed, without using any tool, for easy filling.
- No maintenance, therefore easy-to-use.
- High reliability level, guaranteeing constant productivity.

STOP&GO

The system for making cleaning operations more economical, optimizing consumption and reducing emissions.

When the machine is temporarily idle the brushes are halted. In this way consumptions are optimized and wastes reduced.

NYLON GEAR BOX

Nylon gear box for long life, high reliability and quiet operation (60 dB(A) IEC 704/1).

OPTIONAL 2 KG WEIGHT

Optional 2 Kg weight for increased scrubbing power.
