## CA Wet&Dry 3 Motors: practical and professional wet and dry vacuum cleaners

The professional wet and dry triple motor vacuum cleaners of the CA Wet&Dry range have been designed to provide practicality and professional results.

They are vacuum cleaners equipped with high capacity tanks but designed to be practical and easy to use. Resistant and easy to handle, they are used for the cleaning of medium surfaces or for the collection of solid material of various sizes, as well as liquids.

The versatility and performance of these professional vacuum cleaners make them suitable for cleaning companies, demanding applications and also for rental in Ho.Re.Ca, Wellness & Sports, and public sectors. Triple motor models are the ideal solution for the removal of dust and liquids in the transport, logistics and large-scale distribution sectors.

### THE ADVANTAGES OF CA W/D 3 MOTORS

- Available with stainless steel tank.
- Equipped with fixed trolley.
- Equipped with optional quick drainage kit to facilitate emptying operations.
- Fixed front accessory also available for easy liquid vacuum on wide areas.
- Shift&Clean: innovative cartridge filter cleaning system.
- Foam filter as standard.
- Fabric filter, cartridge filter and nylon filter available as options.
- Wide range of accessories available, making the CA WET&DRY 3 Motors vacuum cleaner range extremely customizable.

**CA A550.3 WDM S**  
Tank capacity: 65 l  
Type: professional WET&DRY  
Suction: 3 motors

## Details that matter

---

Thanks to their ergonomic handle these vacuum cleaners are easily transportable over all floors. Fixed trolley versions are even easier to maneuver.

**CA A550.3 WDM S** can be equipped with a front squeegee, controlled by a pedal placed at the rear of the unit, designed for quick and easy floor drying operations.

**CA A550.3 WDM S** is equipped with a standard drain hose.

**CA A550.3 WDM S** is equipped with the Shift&Clean system, the innovative system to clean the filter by reversing the flow of air. It eliminated the need to open the machine to clean the filter, thus reducing down times.
